

EMPOWERING EVERY **STUDENT** EVERY STEP OF THE WAY

ABOUT US

Embark on a new era of education with CreateCurve!

Our live online classes cater to **CBSE, IGCSE, IB students**, aiming to ignite curiosity and excel in science and math. Gone are the days of traditional teaching – we're rewriting the rules with dynamic educators, compelling content, and continuous evaluation.

At CreateCurve, we're committed to reshaping the learning landscape by providing an unmatched educational journey. Join us in embracing innovation and embracing excellence. Let's revolutionize education together – because at CreateCurve, the future of learning is now.

GLOWING TESTIMONIALS

Create curve provided me a positive environment to perform better at every step. The faculty members were very supportive, available and always encouraged me to do better. The assessments were routinely conducted to assess my growth which helped me to improve. I sincerely thank all the faculty members for their guidance and support.

-- Trisha upreti, CBSE 2024

Studying at Create Curve was an amazing experience. The team was always supportive, answered all my doubts patiently, and helped me understand everything clearly, At any moment regardless of the odd timing. Their teaching methods really made learning easier and more fun. I'm truly grateful for all the help and guidance they provided throughout my journey.

-- Gerard Fernandes, CBSE 2024

I want to extend my heartfelt thanks to Create Curve for playing such a crucial role in my success in the board exams. The guidance, support, and structured teaching approach truly made a difference in my preparation and performance.

A special thank you to Aakash Sir and Yash Sir for their incredible support in Chemistry and Physics respectively. Aakash Sir's clear explanations and consistent encouragement helped me build a strong conceptual foundation in Chemistry, while Yash Sir's insightful problem-solving techniques and patient guidance made Physics much more approachable and enjoyable.

- Hitanshi Pradhan, CBSE 2024

Joining Create Curve has been a great experience. The teachers are supportive, and their clear explanations helped me understand difficult topics easily. The environment is motivating and focused on improvement. Regular practice and guidance boosted my confidence and performance. I'm truly grateful for their help and highly recommend them.

-- Abdul Rauf, CBSE 2024

GLOWING TESTIMONIALS

Consistent schedules, very knowledgeable teachers, and regular updates given to parents.

-- Akash, AS Level 2023

Very Happy with everything greatful to have found very good teachers 😊

-- Anya Burney, IGCSE 2022

End of session asking questions on the topic taught

-- Joshua, CBSE 2023

The attention the teachers give to each individual student is good with Good communication skills

-- Jezreel, IGCSE 2023

Teachers have knowledge & experience about the subjects. Punctuality & focused learning

-- Aarush Nimje, AS level 2023

The tests and assignments which you take are good way to assess. I see my kid happily attend the sessions , he doesn't want to miss and he is gaining confidence in the subject. That's good 👍

-- Rachit Prakash, AS Level 2023

Very good student-teacher interaction along with timely support.

-- Allen , IGCSE 2022

GLOWING TESTIMONIALS

Method of teaching is excellent with
End of session asking questions on
the topic taught

-- **Abryan Gabriel, CBSE 2022**

Well scheduled, well explained and
tasks provided

-- **Gerard, CBSE 2023**

As an educational institute,
Setting up a PTM meeting is a
positive effort from the faculty to
tell kid's progress.

-- **Samarth, AS Level**

Making students summarize at
the end of classes to remind the
students of what is taught

-- **Dhithi uppal, CBSE 2022**

Very Happy with everything and grateful
to have found very good
teachers. Consistent schedules, very
knowledgeable teachers, and regular
updates given to parents.

-- **Vania Roy, CBSE**

Approachable and understanding student
psychology, it helps a lot.

We have faith on team though it was
quite challenging when Arya has changed
her curriculum from CBSE to IGCSE, with
team work it was executed so well. We are
since being so comfortable with team
and we wish good to everyone.

-- **Arya Vyas, IB 2023**

WEEKLY TIME TABLE

We pride ourselves on offering dedicated weekly sessions meticulously designed to delve into the intricacies of Physics, Chemistry, Mathematics, and Biology. We understand the importance of accommodating our students' needs and availability. Therefore, our **weekly timetable is crafted collaboratively, considering our students' unique schedules.** We share the weekly timetable on our WhatsApp group and Teams every week.

PARENT-TEACHER CONNECT

Over the past few years, we've conducted two transformative parent-teacher meetings (PTMs) at Createcuvé. These sessions go beyond traditional discussions, aiming to elevate the engagement into data-driven conversations that pinpoint specific areas for attention and improvement.

Our educators focus on the following components during PTM:

- Individual subsection-related remarks and suggestions.
- Progress track on attendance, test score & and syllabus completion.

Our objective extends beyond sharing academic marks. We delve into meaningful dialogues that contribute to a student's holistic development and shape their future college prospects.

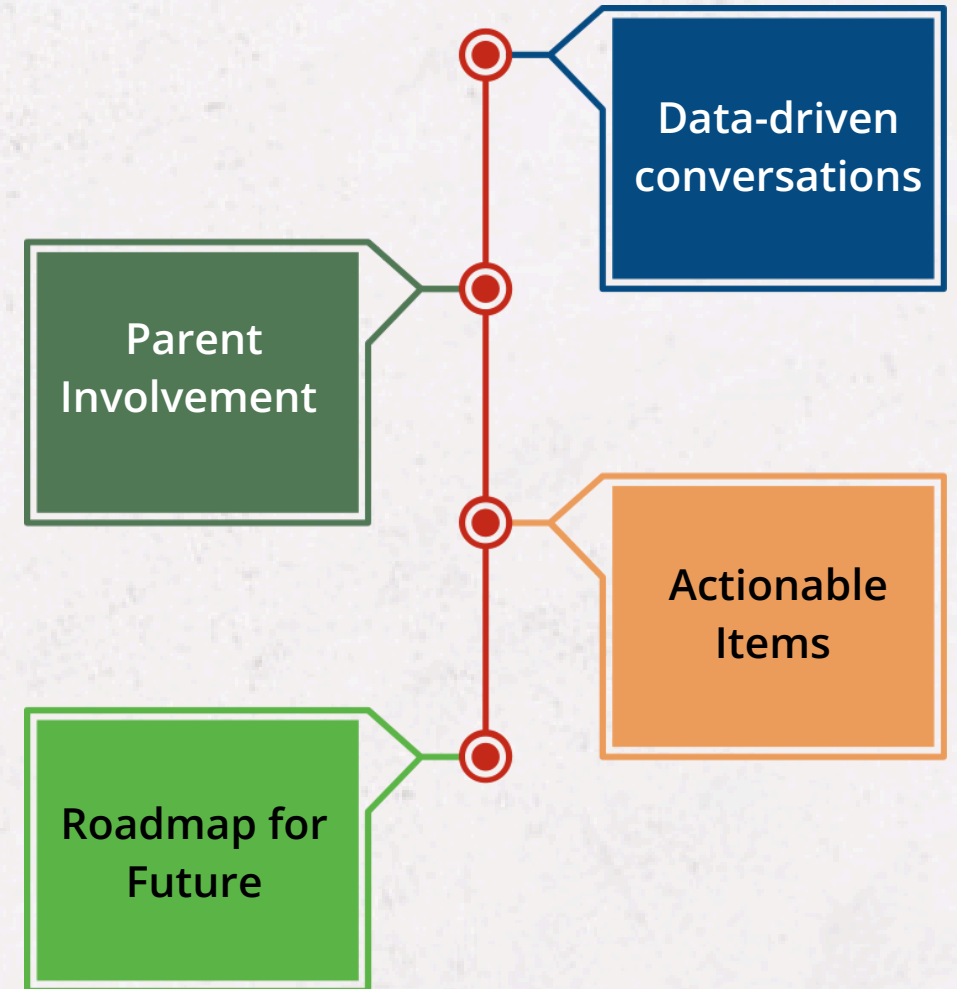

PARENT-TEACHER CONNECT

To facilitate insightful discussions, we plan to extend the duration of our PTMs. This ensures we can delve deeper into the aspects that truly matter, providing valuable insights to parents and teachers. It's an investment in the holistic development journey of each student.

At createcurve, we don't just discuss; we act. Our team diligently notes actionable items during PTMs, creating a roadmap for addressing challenges and fostering continuous improvement.

This commitment ensures that every PTM serves as a stepping stone toward excellence where every interaction becomes a catalyst for growth, understanding, and a brighter future for every student.

Parent-Teacher Connect

PERSONALIZED STUDENT PROFILE

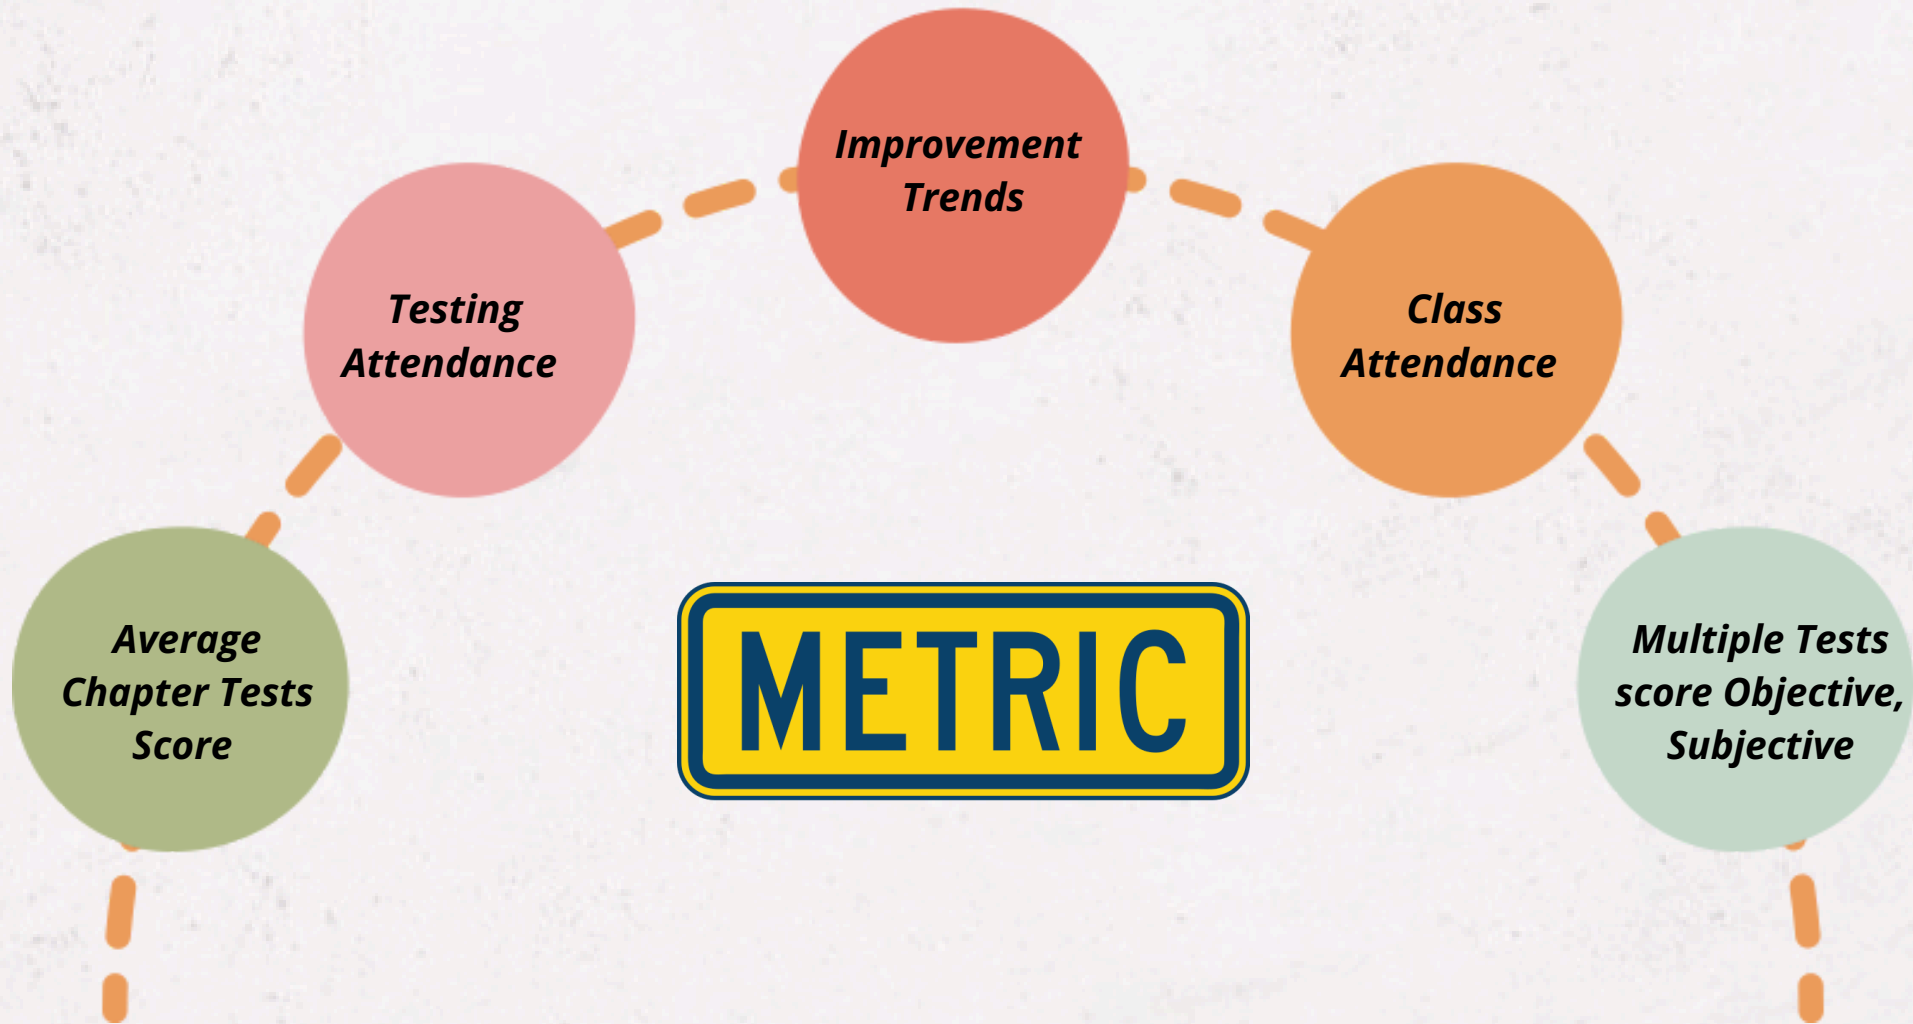

In the upcoming year, Createcuve is spotlighting academic excellence through a revolutionary approach—personalized student profiling.

Each student will have a tailored profile, unveiling insights into subject proficiency, chapter-level understanding, and test performance.

Embark on a journey of academic excellence by prioritizing your presence in every class. Your regular attendance percentage is a reflection of your commitment to learning. We meticulously track the number of classes attended, ensuring you're always in sync with your educational trajectory.

PERSONALIZED STUDENT PROFILE

FAQ CORNER

1. What is the effectiveness of online teaching compared to offline teaching?

Our online platform offers professional, experienced teachers who have taught in multiple countries, grades, and boards. Students can join sessions at their convenience, saving travel time and reducing the overall time commitment.

2. How many sessions and hours are there per week for all subjects (PCMB)?

We offer 6-8 hours of sessions per week for PCMB subjects.

3. How will you test the kids' performance on a monthly/yearly basis?

We conduct chapter-wise, partial, and full tests. Additionally, we provide monthly student reports.

4. What will be the monthly/yearly curriculum plan for our kid?

We have a customized yearly planner aligned with the ongoing topics in school.

5. Will you cover the chapters left by the school? How will you plan to have sync between you and the school?

Yes, we discuss school coverage in our classes to ensure alignment.

FAQ CORNER

5. Will you cover the chapters left by the school? How will you plan to have sync between you and the school?

Yes, we discuss school coverage in our classes to ensure alignment.

6. Our kid has not performed well in the previous grade. How will you improve their performance level, and what is the ideal growth here?

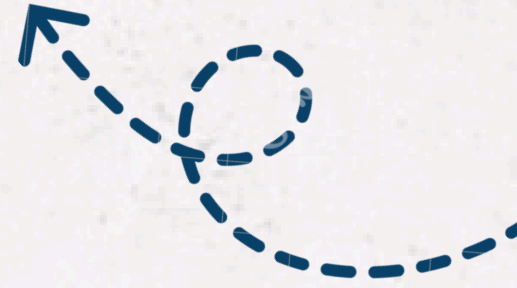

We use a standard teaching pedagogy that includes 1-on-1 mentorship and practice to enhance performance.

7. Our kid has multiple sessions in a week with different teachers. How will the timetable be structured?

We share a weekly timetable considering the student's other classes.

8. Is it possible to have one-on-one sessions for our kid? If there is a group session, what is the batch strength?

We offer small group sessions to encourage better group discussions while maintaining individual attention.
